WORKING
PAPERS

USSR, Education, Work History, Fertility Choices, and Later-Life Outcomes (with Telmo Pérez-Izquierdo)

This paper investigates how living under the USSR affected life decisions of East European individuals. We exploit retrospective data from the SHARELIFE survey and historical statistics to analyze respondents choices from 1950 to 1990. In particular, we compare individuals in Lithuania (former USSR) and Poland (former Soviet Bloc), exploiting both countries common history until the Second World War. We find that Lithuanian women

increased educational attainment and accumulated two more years of work experience by age 50 relative to Polish women. These findings highlight the importance of country-specific factors when determining the legacy of socialist policies.

Online Discrimination and (Self) Regulation: Evaluating Airbnb's Nondiscrimination Policy (with Michelangelo Rossi)

This paper estimates the impact of Airbnb's Nondiscrimination Policy in the US at the end of 2016. We identify users names using a machine learning algorithm and apply the difference-in-differences and event study techniques. The share of hosts who are not able to discriminate guests by rejecting their requests more than doubled from 2016 to 2018. Nevertheless, the proportion of guests with non-white names accepted by hosts who may discriminate guests did not significantly change after the policy.

Impact of Employment on Informal Caregiving to the Elderly Mothers in Europe

This paper studies the trade-off faced by adult individuals in Europe between participating in the labor market and providing informal care to their elderly mothers. Using the Survey of Health, Ageing, and Retirement in Europe, I develop a bivariate simultaneous choice model of work and informal care, and exploit the heterogeneous impact of the Great Recession on European countries as an exclusion restriction. I show that participation in the labor market decreases the probability of providing informal care by about nine p.p.

CONFERENCES & WORKSHOPS	Student's Workshop University Carlos III of Madrid, Spain	2017 - 2020
	The 2019 ENTER Jamboree at Tilburg University, The Netherlands	2019
	12th International Conference on Migration and Development, Spain	2019
	15th Annual International Conference on Sports: Economic, Management, Marketing & Social Aspects, Athens, Greece	2015
AWARDS	FPI Grant by the Spanish Government	2016 -
	Teaching Excellence Awards, University Carlos III of Madrid:	2018 - 2019
	M.A. level: Microeconometrics, Game Theory	
	B.A. level: Economics of Education, Mathematics II	
	Full scholarship and tuition waiver Master in Economic Analysis, UC3M	2015
	Scholarship for academic excellence, Moscow State University	2009 - 2012
TEACHING EXPERIENCE	Course Organizer at the University Carlos III of Madrid	2018 -
	M.A. level: Mathematics Preparatory Course	
	Teaching Assistant at the University Carlos III of Madrid	2013 - 2019
	Ph.D. level: Mathematics Preparatory Course	
	M.A. level: Microeconometrics, Game Theory	
	B.A. level: Advanced Mathematics, Economics of Education, Mathematics I and II, Microeconomics	
SKILLS	IT packages: STATA, QGIS, MATLAB, R, Microsoft Office	
	Languages: Russian (native), English (full professional proficiency), Italian (intermediate), Spanish (basic)	
ACTIVITIES	Volunteer for Banco de Alimentos de Madrid	2019 -

- I collaborate in the Spanish food bank that distributes food for people in disadvantaged situations.

Mentor for New Economic School (NES) Female Society   2019 -

- I mentor and support NES female graduates who have got into a Ph.D. program.
